Ranhill helps preserving the environment by cleaning-up Likas Bay

Ranhill Power Division (“**Ranhill**”) together with Dewan Bandaraya Kota Kinabalu (“**DBKK**”) joined forces to clean-up the beach along Likas Bay, a popular hotspot for Kota Kinabalu community. Mr Jacob Galium, Pegawai Jabatan Kesihatan Persekitaran DBKK, attended the event on behalf of the Kota Kinabalu Mayor.

The event started at 6.30am and took 3 1/2 hours to complete. The beach cleaning activity was part of Ranhill’s corporate citizenship initiatives to create awareness on environmental preservation.

”As a company with presence in Sabah, we would like to contribute more to the community surrounding our plants. Likas Bay was picked as it is a favourite place for the locals to hang-out with family and friends. We would like to help preserving its environment to maintain the cleanliness along the beach so they could continuously enjoy spending their time here”, said Dr. Zahrul Faizi, Chief Executive Officer of Ranhill Power Division.

The event was attended by more than 150 Ranhill employees and their families. They collected litters along the beach from Teluk Likas Pantai 2 to Anjung Selera Tanjung Lipat. After the event, the participants left feeling happy and looking forward to the next awareness campaign by Ranhill.

-ends-

Ranhill Holdings Berhad (“Ranhill”) is a Malaysian conglomerate listed on the Main Market of Bursa Malaysia Securities Berhad and has invested extensively in environment and power sectors. In the environment sector, it provides water supply services, operates water and wastewater treatment plants, and provides specialized services in the management and optimization of water utility assets. In the power sector, it owns and operates two 190 MW plants in Sabah, Ranhill Power I (RPI) and Ranhill Power II (RPII), providing up to 380 MW of electricity-generating capacity and electricity production for 21 years. Routine maintenance on both power plants is done by Ranhill Power O&M Sdn Bhd (RPOM) and Ranhill Power O&M II Sdn Bhd (RPOMII), the subsidiaries of RPI and RPII respectively. Its operations and services are primarily in Malaysia and its international operations are centered in Asian markets such as China, Thailand and South East Asia.

In the environment business, it has been granted an exclusive license (renewable every three years) by the Minister of Energy, Green Technology and Water, Malaysia to provide source-to-tap water supply services with total capacity of 1,986 MLD (million liters per day) to the end-customers in the entire State of Johor. Outside Malaysia, it operates water concession assets on a BOT and TOT basis through its subsidiary, Ranhill Water Technologies (Cayman) Ltd, in China with total capacity of 260 MLD and in Thailand with total capacity of 102 MLD, including a 10 MLD reclaimed water treatment plant.
