Ranhill Group donates RM1 million to Covid-19 fund

Johor Bahru, 22 March 2020

Ranhill Group donated RM1 million to the government's Covid-19 fund in support of national efforts to battle the global pandemic.

Ranhill Chief Corporate officer, Datuk Ir. Mustaza bin Salim today presented a RM1million cheque to Johor Menteri Besar Datuk Hasni Mohammad at the latter's office.

“Ranhill Group’s major business is centred in Johor and it is only appropriate that we channel this contribution to the Johor Covid-19 fund which will allow us to lend a helping hand for the welfare of the people of Johor,” Mustaza said in a statement issued today.

The conglomerate’s main subsidiary, Ranhill SAJ Sdn Bhd is an integrated water provider that supplies treated water to 3.7 million people in Johor as well as industries across the state.

The RM1 million contribution as well as other incentives are part of Ranhill Group’s social responsibility to work hand in hand and support the government's initiatives.

"We hope this contribution will go some way in reaching out to many others who are in need."

Mustaza also commended the government's efforts in handling the situation, including looking into various initiatives for the people's welfare during these trying times.

Noting that its business was not spared following the global pandemic, Mustaza said that Ranhill will stand by all Malaysians “as we brace ourselves to overcome adversities.”

He also thanked the many doctors, nurses and healthcare workers who are at the forefront of this battle against this viral outbreak.

In appreciation of their tireless dedication and commitment, Ranhill SAJ made contributions in the form of ready-to-eat foods and drinks to the frontline staff of Hospital Sultanah Aminah Johor Bahru.

Just yesterday, the company announced a 50% discount on water bills for all its B-40 customers throughout the month, and the suspension of water disconnection enforcement for all other customers until end April.
